

ARGENTINE RED SHRIMP ONSHORE FIP

RATING: "A - Exceptional Progress"

DATE: JANUARY 2019

Stage 4 most relevant progress during the last 12 months:

During the first quarter of 2018, the Fisheries Federal Council completed a series of meetings with different stakeholders in the provinces of Buenos Aires, Chubut and Santa Cruz to start designing a management plan for the Patagonian red shrimp fishery.

On January 2018, an Agreement was signed between the Secretariat of Fisheries of Chubut and CeDePesca, to advance together towards FIP's objective.

On May 2018, the Federal Fisheries Council issued the Resolution No. 7/2018, which establishes the management measures for the red shrimp fishery.

On August 2018, the Secretariat of Fisheries of Chubut authorized the carrying out of a survey in the Restricted Fishing Effort Zone (ZEPR), through Resolution No. 220/2018. Eight boats participated, at an unusual time for Chubut.
